

QI442 HSI IMPACTOR PIONEERING SOLUTIONS FOR YOU

TECHNICAL SPECIFICATION

The QI442 is a heavy duty, self-contained track mobile impact crusher which features the unique Sandvik CI621 Prisec impact chamber. This offers unparalleled flexibility through the ability to work in both primary and secondary applications.

This newly developed impactor comes with a host of innovations for efficiency and improved efficiency and greater safety during maintenance. This includes a new patented rotor locking and positioning device for controlled rotor movement during maintenance.

KEY BENEFITS

- The Sandvik Prisec impactor is the most flexible impactor currently available on the market designed to meet end product specifications.
- The machine is fitted with a pre-screen to extract any undersize material from the feed passing through the impactor, thereby maximizing throughput and reducing wear costs. A further sellable, sized product can be produced using the natural fines conveyor
- The pre-screen has a choice of grizzly or punch plate top deck and mesh bottom deck providing the flexibility to suit any application.

- Heavy duty underpan feeder with wear resistant liners transfers both the bypassed material from pre-screen and high velocity material from the rotor onto the product conveyor in a controlled manner.
- Two hydraulically adjustable apron curtains can be positioned to produce a wide range of material, product sizes and specifications.
- The above combined with the variable engine speed gives a tip speed range of 34 m/s to 42 m/s resulting in a wide range of product gradations being achievable.
- Capable of operating in the most hostile environments with a 50°C ambient temperature capability without any oil changes.
- Modular double deck hanging screen available to provide a 1, 2 or 3 way split.
- The modular double deck hanging screen can be quickly detached to operate in open circuit.
- Fitted with My Fleet remote monitoring system as standard for live monitoring of plant, hours, location, etc.

STANDARD SPECIFICATION

Primary pan feeder
Vibrating pre-screen
Underpan feeder
Single pole overband magnet
Folding main conveyor complete with dust covers
Natural fines conveyor
Dust suppression spray bars
Hydraulic jacking legs
Remote diesel pump
Tool kit
Radio control tracking, proportional
Light mast and cabinet lights
Pull stop cords all conveyors

Hydraulic water pump My Fleet telematics

Note. All weights and dimensions are for standard units only
